ADDENDUM NO. 1

SISSETON-WAHPETON OYATE DOT, Reservation Wide Striping project

The following addendum shall be acknowledged as having been received and marked as such on the outside of the sealed envelope containing the bid and on the Bid Form.

1. Scope of Work:

- a. All Durable Pavement Marking in this contract, whether 4" yellow or 6" white, shall be an overspray of existing pavement markings.
- b. All Durable Pavement Marking in this contract, whether 4" yellow or 6" white, shall be waterborne paint, applied at a wet film thickness of 20 mils.
- c. All crosswalk markings and yield triangles in the contract consist of existing cold applied plastic markings. The Work consists of removal and replacement with new, like materials.
- d. All turn lane arrows on BIA 700 have been previously applied with waterborne paint. The Owner seeks to replace the markings at their existing locations with ground and inlaid cold applied plastic pavement markings.
- e. [Summarize any other individual scope of work clarifications I might have missed].
- f. Refer to the Updated Plan set attached with this Addendum #1

2. SEALED BID OPENING: July 8 @ 3:00 P.M. CDT
